Program to find whether a number is positive negative or zero

```c
//anshikakawde ic-2k26-11
#include<stdio.h>
int main()
{
  int n;
  printf("Enter a number: ");
  scanf("%d", &n);
  if(n > 0)
  {
    printf("Positive Number");
  }
  else if(n < 0)
  {
    printf("Negative Number");
  }
  else
  {
    printf("Zero");
  }
  return 0;
```

```
Enter a number: 45
Positive Number
```
